Dillon Fillion Calls Out Democrat Opponent for Voting Against HF 2104, Vows to Protect Iowa Landowners from Eminent Domain Abuse

Davenport, IA, January 24, 2026 Today, Dillon Fillion, candidate for **State Representative in House District 81**, applauds the Iowa House for passing HF 2104 on January 22, a vital bill banning the use of eminent domain for carbon capture pipelines, while condemning his Democrat opponent for voting against this critical protection for private property rights and Iowa families.

“I am proud to stand with Iowa landowners. No company or business should be using eminent domain for private gain. It is absolutely insane that this is a debate,” said Fillion. “Unfortunately, my Democrat opponent voted against HF 2104, which amends Iowa Code § 6A.22 to prohibit the use of eminent domain for private pipeline projects and defend your constitutional right to your land. The Fifth Amendment of the U.S. Constitution guarantees that private property cannot be taken for public use without just compensation, and it was never intended to allow the government to take land for the profit of private companies. HF 2104 ensures that Iowa landowners are fully protected from this kind of abuse.

“Let me ask you this: how would you feel about the state or federal government taking your land without your approval? With his vote, my opponent essentially believes that is acceptable. Unlike my Democrat opponent, I will always stand up for your constitutional rights. It’s time to elect leaders who lead with strength, and I am that leader.

As a champion for conservative principles, Fillion urges the Senate to pass HF 2104 promptly to defend homeownership and prevent corporate overreach on Iowa landowners. To learn more about Dillon Fillion and his campaign, visit dillonfillion.com
